

OPTOTRAK PORTABLE CMM

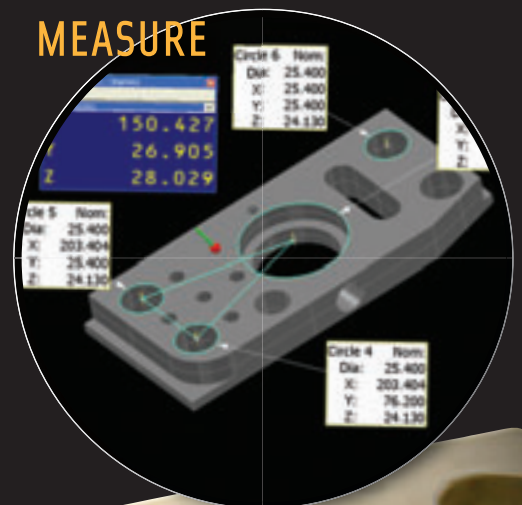

Experience the ultimate in portable CMM usability with NDI's line of optical measurement solutions. Discover total measurement freedom and true handheld operation using an ultra-lightweight probe that is tracked optically. This advanced system guarantees effortless measurement by eliminating the mechanical linkages that can restrict movement and reach. The system's solid state design also eliminates all moving parts ensuring greater reliability.

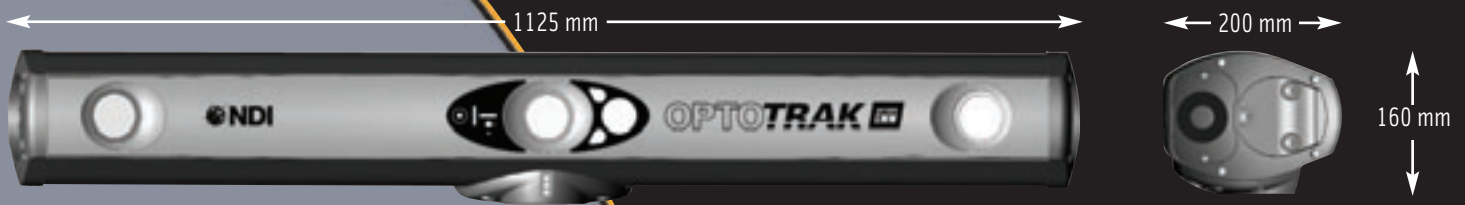

Measure more quickly and easily than alternative arm-based technologies. With greater convenience and a substantial reduction in operator fatigue, you will dramatically increase measurement efficiency and throughput on the shop floor.

- *No mechanical restrictions*
- *Greater measurement freedom*
- *Reduced operator fatigue*
- *No moving parts*

MEASURE

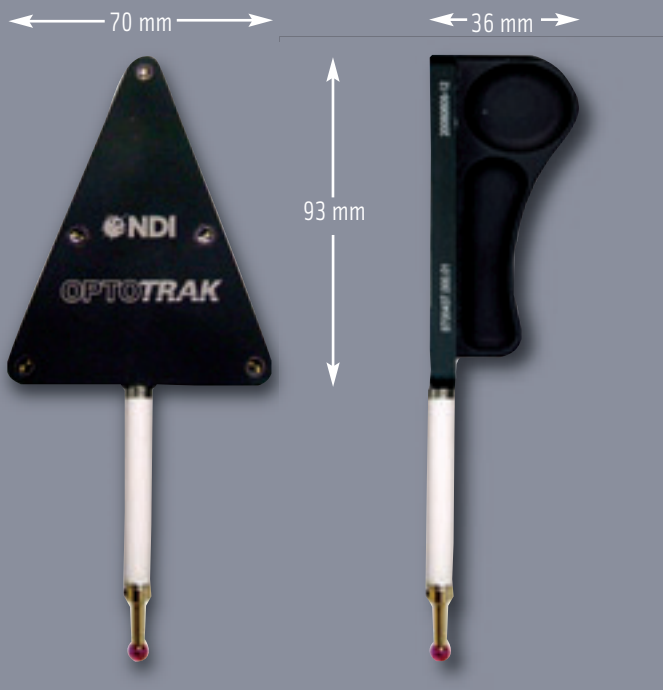

OPTICAL TRACKER

Dimensions 200 mm x 1125 mm x 160 mm
 Weight 18 kg
 Power Input 100 - 240V AC, 50/60 Hz 2.5A

PROBE

Dimensions* 70 mm x 93 mm x 36 mm
 Weight * 85 g

* Measured without stylus.

All weights and dimensions are approximate.

SYSTEM SPECIFICATIONS

Range	2.25 m - 4.0 m	
Volume	5.4 m ³	
Accuracy (µm)	Single Point	30
	Volumetric**	90+2.5L/100

** Values indicated have been ascertained according to general guidelines described in ISO 10360-2:2000 for size measurement and are expressed as a 95% confidence interval.
